The excavation site has since been converted into an underground archaeological museum known as La Almoina displaying artefacts of the city's 2,000 years of history spanning 5 periods or empires — the Roman Republic, High Roman Empire, the Visigoths, the Islamic caliphate, and the Christian Kingdoms. Afterwards we will travel to discover the Turia Riverbed and pass by the verdant and landscaped river park and to learn of the River Turia's historic bridges. The river's original course was diverted in the 1950s due to a devastating flood and the old riverbed was converted into a green belt of parkland and gardens. MODERN ARCHITECTURE & WINERIES

This 5-day trip starts with a visit of the town of Bilbao in the North of Spain, famous for its unique architecture, from the Guggenheim museum by Frank Gehry, and the emerging star architecture along the riverfront, to the medieval Casco Viejo.

To understand the ‘Guggenheim Effect’ you need to visit Bilbao. After the stagnation of their steel and shipbuilding industries in the 80s, the Basques came up with an ambitious plan in the shape of Frank Gehry’s gleaming Guggenheim Museum, which sparked a tourist boom and a city-wide regeneration, with Norman Foster, Philippe Starck, Zaha Hadid and Santiago Calatrava behind the new projects. The city is now so much more than the museum that put it on the map. But 21st-century architecture is not the only draw: the Basques have a reputation as the best chefs in Spain, so there is plenty of gastronomic delight as well...

DAY 1. BILBAO

Modern architecture and riverfront: the Guggenheim, the Zubizuri bridge, Foster's metro, the Euskalduna Congress Palace. Lunch in the renewed Alhóndiga complex (Philippe Stark). Our hotel is the centrally located design hotel. Dinner in a renowned restaurant.
